Dear 'My Sonic Universe',
You should use these six arcs that I thought of:

1) Amy Rose

Look to your left!

2) Princess Sally

She was in Arc#4: "Journey to the East"! Plus, Sally will have enough to deal with soon enough in our sister title Sonic the Hedgehog!

3) Rouge the Bat

Look to your left!

4) Julie-Su

See Arc #3: "Echoes of the Past"

5) Bunnie Rabbot!

She was just in "THE TAILS ADVENTURE"! Also, shift your gaze down and to the left.

6) All the girls!

Look to your left!

Gotta Juice!

**Susy M.
from Illinois**

Ask and you shall receive there, Susy! Not only will the next arc (beginning NEXT MONTH, incidentally) feature all your favorite girl characters, but TONS of your favorite bad boys and cool dudes as well! Needless to say - you better pick up "TREASURE TEAM TANGO" part one!

Dear 'My Sonic Universe',

There have been

many great and wonderous questions posed throughout the course of history. Why does the earth orbit the sun? How do birds know when to migrate? Why is the sky blue? Such questions have been answered. However, there exists an even more awe-inspiring query which yet remains unsolved. It is a recently conceived incision presented by the one and only Archie Andrews. The mystery question is: Who could eat more chili-dogs at one time, Jughead or Sonic? I implore the experts for the truth.

**Sincerely,
Olivia T.**

from New Hampshire

Who would win, you say?

The fans.

Dear 'My Sonic Universe',

This is my first time writing to you guys, and I gotta say: your comics are AWESOME!!! But I have a question.

Capricorn.

In Arc #3: "Echoes of the Past", what--
(oh)

-- time does the story take place in? I mean, like 20 years after the classics or what?

One of your many fans,

John B.

from New Hampshire

I'm not really sure what you mean by "classics"...If you mean the classic comics, "Echoes" takes place in present day Mobius, which is roughly 12 years after the first Robotnik rule began (ROUGHLY).

Dear 'My Sonic Universe',

How long will Sonic Universe go on?

SU will go on and on until the Xorda come and turn the Earth into a Michael Bay movie.

By the way, in the first part of "35 Years Later", Sasha the Cat looks an awful lot like Blaze the Cat, while she has been depicted as looking more like Hershey St. John. How come the re-design?

Not so much a re-design as theorizing that most Mobian cats probably grow up looking a tad similar! Except the inhabitants of the Mysterious Cat Country. Why? It's a mystery!

Will Cream, Cheese and Vanilla be appearing in SU?

**I love you guys!
